After accidentally summoning the Devil with a secret guitar chord, Marc and his friends set out on a quest to collect magical rock and roll artifacts that will help them save their souls from ol' Beelzebub's grasp. Along the way Marc is haunted and helped by Keith Richards' ghost, who needs him to win back his own soul traded years ago. Marc and his motley crew cross paths with Papa Legba, the Devil's son (who happens to be one of the biggest rock stars of the 20th century), and other supernatural forces in their attempt to avoid eternal damnation.
